notavailable.aspx

"Ask a question" feature : → log in to ask a question
                                  → log in failed . invalid email a password entered
                                  → Alert : please fill out this field

→ placeholder : 1. username

2. password.

→ Search how to log in with facebook

Searchbar :   < input

type : "text"

Value = " search ... "

max length = "100"   how many characters are authorised.

autocomplete = "on" or "off"   // this feature gives suggestions or not,

while searching />

without a line break, or a paragraph in between, create another
input tag with a submit type.

< input

type = " submit "

value =" icon search " →   add that little pic.

⇒ give   related   page

Else

⇒ page   not found

Add a get involved feature : ——→ join the adventure.

A transparent navigation bar would be cool if there is a solid image
and it's located in the middle of the head section.

↘ 💡 Event page.

// community sign up and registrat°.

F. Script.

```
<!Doctype html>
<html>
    <header>
        <title> Yellow </title>

        <meta   chaset ="Utf-8>
        <link   type="text/css"   rel="stylesheet"   href="CSS/yellow.css">

        <link   type="text/javascript"   href="javascript/yellow.js">

    </header>

    <body> //100%, have the colour strips

        <div id="main">

            <header> /* have a big
            </header>    background image
                         or plain colour
                         */
```

→ colors that go well with yellow:
for the background triangles.

header
nav
body
main
fat footer

the header can have
a log in or sign up.

↳ id ="navigation"

            </li><li>
```

⟹ Christmas

Only 5 pages
need to have mea-
ningful content.
most of the dropdown
can either have place
holders or be inactive

```
</ul>
    </nav>

<div>
</div>

<div>
</div>

<div>
</div>
```

blocks of content
preferabbly in a colour that
stands out from the
`<body>` colour.

⤷ these are square or
rectangles, depending on
the screen size.

⇒ ==Media queries.==

```
<footer>

</footer>
```
→ big fat footer with lot of

`<ul>`

→ try to link a
facebook logo, twitter...

⤷ background colour : plain
==CSS==

```
<body>
</html>.
